

The Budget's transport investment priorities are damaging to the prospects of meeting Scotland's legislative commitments on climate change:

According to the Government's own analysis, only 3.6% of the transport budget will cut climate emissions.

- The total transport budget in 2013-14 is £2,001.8m. [See Table 9.01 on p.115 <<http://www.scotland.gov.uk/Resource/0040/00402310.pdf>>. The first 6 rows total to £2,001.8m.]
- According to the Government's own analysis, only £72.9m of this will reduce emissions. [See pp.10-14 of <<http://www.scotland.gov.uk/Resource/0040/00408239.pdf>>.]

For further information:

For Transform Scotland's detailed views on the Scottish Government's Budget, please see the evidence paper we submitted to the ICI Committee in late 2012. This is available on our website at <<http://www.transformscotland.org.uk/GetFile.aspx?ItemId=604>>.

Transform Scotland is the national sustainable transport alliance, campaigning for a more sustainable and socially-just transport system. Our membership includes bus, rail and shipping operators; local authorities; national environment and conservation groups; consultancies; and local transport campaigns. Transform Scotland Limited is a registered Scottish charity (SC041516).
